

Eng. Mangala Silva

Consultant Structural Design Engineer

B.Eng.(Hons), MEng (Structural Designs), C.Eng, FIE(SL), MSSE(SL), IntPE(Sri Lanka), GREENSL@AP

29th April 2022.

To whom it may concern,

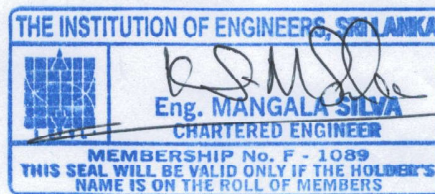

**CERTIFICATE OF STRUCTURAL INTEGRITY OF BUILDINGS AT PHILIP HOSPITAL,
225, GALLE ROAD, KALUTARA SOUTH,**

I inspected all buildings of Philip Hospital, 225, Galle Road, Kalutara South and carried out a detailed survey on structures and preliminary structural calculations of the structural elements of the existing buildings.

According to my observations and the professional judgement, all buildings will be structurally adequate to withstand for expected loads and good enough to serve the intended purpose for minimum of another five years without any adverse impact to its users or adjacent properties.

Yours truly,

Eng. Mangala Silva
