Date

.....
Director
Provincial Environmental Authority

General Terms and Conditions

1. The licence shall be valid for such period as may be specified in the license, provided it shall **not** be for more than a period of one year from the date of issue. An application for renewal of the license shall be made at least three months prior to the date of expiry of the license.
2. The holders of the Licence shall permit the Director or any other officer duly authorized in writing by him at any time to enter the premises in respect of which the Licence is issued to examine and inspect any equipment or industrial plant; and
 - (a) to take samples of any pollutants that are emitted, discharged or deposited from or by such equipment or industrial plant;
 - (b) to examine books, records or documents relating to the performance or use of such equipment or industrial plant or relating to the emission, discharge or deposition from such industrial plant;
 - (c) to take photographs of such equipment or industrial plants as he considers necessary or make copies of any books, records or documents seen in the course of such examination; and
 - (d) to take samples of any fuel, substance or material used, in such trade, industry or process carried on in or on such premises.
3. The holder of the Licence shall comply with any requirement communicated from time to time by the Authority as regards :
 - (a) the use of any techniques or installations in the production/process, handling and storage of goods, material, fuel and waste products with a view to minimizing environmental pollution and hazards ; and
 - (b) any additional technical measures for preventing or mitigating environmental pollution and hazards.
4. The holder of the Licence shall ensure that monitoring of environmental pollution or other acts that the authority considers necessary to protect the environment, including the following are done:
 - (a) measurements, calculation, registration of samples to determine actual level of pollution and risk of exposure ;
 - (b) recording and sorting of data and reporting to the Authority ;
 - (c) issuing written instructions to persons employed with regard to handling of hazardous material and installations to protect the environment ;
 - (d) assigning duties and responsibilities to management and staff with regard to protection of the environment ; and
 - (e) ensuring that persons referred to in (c) above, and charged with duties and responsibilities referred to in
 - (d) above are properly qualified persons.
5. This Licence is valid only for the type and nature of the industry/process/operation as stated in the preliminary application and to the information submitted by the Licencee.
6. Any alteration or extension made to the industry, process or operation should be indicated forthwith to the Authority.

4.0 LIQUID WASTE.

- 4.1 Liquid effluent including blood and urine samples generated due to hospital /domestic activities is not allowed to discharge to the open environment.
- 4.2 The waste water generated from the project should not be discharged into the environment without treating up to the gazetted tolerance limits for discharge of industrial effluent into the inland surface water/irrigation purposes as per the extra ordinary gazette notification no. 1685/11 and dated 21.12.2010.
- 4.3 The effluents generated due to project activities to the hospital shall be directed to the Grater Kurunegala Sewerage system as per the letter dated 28.06.2019 submitted by you to this Authority on the same matter.
