Structural Safety Report

Project : Private Hospital for Eastern Medical Services Pvt Ltd, New Kalmunal Road, Kallady, Batticaloa

Number of storeys – Seven (Including Basement) and Reinforced Concrete structure

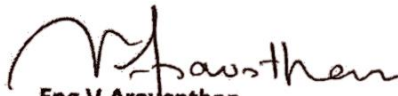

I have carried out a comprehensive inspection that relies largely on my professional engineering assessment, judgment, and advice. I had exercise reasonable diligence and take active and personal interest in the planning and carrying out of the inspection of the building together with the Architectural and Structural drawing.

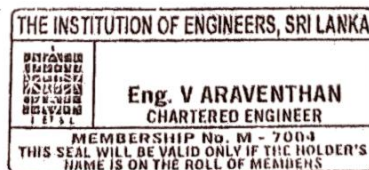

The findings/Survey are as follow as,

1. No Signs of Structural Defects, Damages, Distress, Deformation or Deterioration noticed
2. Survey of structure any exposure to aggressive environment – **NONE**
3. Survey of Addition or Alteration Works to Building Structure – **Checked**
4. Survey of Loading on the Building Structure – **Checked**
5. Any deviation on the structural drawing – **Not found.**

Conclusion: Based on the prevailing details and inspection the overall structural integrity and stability is good

I certify that the inspection was carried out and the report was prepared by me. Validity of the report shall be five years from to date.
